

THSIMB Internal Audit Policy

Bylaws, Article IX, Section 9:3

The Audit Committee shall be either an outside individual, or a THSIMB member to chair a committee that will consist of at least three (3) members other than members of the previous Board of Directors (excluding the Treasurer), to examine the organization's financial records and transactions made during the preceding fiscal year. In addition, the individual or committee shall be authorized to periodically review selected financial records periodically throughout the year, either at their own discretion or at the request of the Board of Directors. The appointment shall be made prior to the beginning of a new fiscal year (June 1) and will be effective for 15 months. In the event there are two different appointees from June through August, the incumbent shall be the lead reviewer or committee chair. This individual or committee shall conduct its examination and provide a written report of its assessment to the Board of Directors within 90 days of the end of the fiscal year in accordance with the THSIMB Audit Policy

Procedures

Internal Audit Policy

Step #1: Gather financial documents including:

- ☐ Copies of all written financial policies
- ☐ Copies of treasurer's reports for the year (or other period) to be reviewed
- ☐ List of all bank and investment accounts, including names of persons authorized to sign on each account
- ☐ Copies of all bank and other financial statements for the period to be reviewed
- ☐ Copies of all bank and investment account reconciliations for the period to be reviewed
- ☐ Cash tally sheets
- ☐ Cash receipts journal
- ☐ Invoices, receipts and other documents
- ☐ Documentation of any restrictions on the use of any particular funds or donor gifts
- ☐ IRS letter documents including most recent Form 990, IRS letter recognizing tax-exempt status, and IRS letter assigning an EIN (employer identification number) to the organization.

Step #2: Review financial documents and processes:

- ☐ Check the organization's EIN (employer identification number) as assigned by the IRS against the EIN used on the organization's bank and other financial accounts. Make sure that the school's EIN is not being used.
- ☐ Check names of persons authorized to (a) approve transactions and (b) sign checks, against:
 - persons authorized to conduct these activities in the organization's minutes; and,
 - bank records indicating who is authorized as a signatory.
- ☐ Check to ensure that the same person(s) who sign checks are not the same/or only persons reviewing monthly bank statements.
- ☐ Check all bank reconciliations to determine that the beginning balance of one month is the same as the ending balance of the previous month. Also note whether the balance listed on financial statements is the same as the balance listed on the treasurer's reports presented to the organization.

- ☐ Pick one month and perform a bank reconciliation using the original records. If you find a discrepancy between your reconciliation and the reconciliation provided by the treasurer or other person who performed the original reconciliation, research the discrepancy to find the error or explanation for the discrepancy.
- ☐ Count all cash in petty cash accounts to ensure that the count agrees with the books.
- ☐ Check to see if the organization carries fidelity bond coverage on people handling the organization's funds; if insurance is not held, propose that the organization consider obtaining bonding coverage.

Step #3: Review income and receipts

- ☐ Determine if the deposits listed on the financial reports provided to the organization match deposits listed on bank statements.
- ☐ Check to see if cash tally sheets match the amount of cash report as received from an event on financial reports, and also match the deposit indicated on bank statements.

Step #4: Review disbursements

- ☐ Test to be sure that payments made were properly authorize – by a line item in the approved budget, an approved amendment to the budget, or an appropriate vote authorizing the expenditure.
- ☐ Test purchase orders to be sure that they were properly approved and match the actual disbursement or invoice.
- ☐ Review records to ensure that there is an invoice, receipt or other appropriate written documentation for each disbursement, and that the amounts match.

Step #5: Tax/information returns

- ☐ Review financial records to ensure that appropriate federal (IRS Form 990) and state income tax/information returns have been timely filed.

Step #6: Review financial control systems

- ☐ Check to evaluate whether financial duties have been appropriately separated. Although it can be difficult for small organizations to separate financial duties, certain separations are essential for appropriate financial controls. These separations protect both the organization, and the individuals handling the finances.

Specifically:

- Individuals with signature authority should NEVER approve the transactions/disbursements for which they sign. All expenditures should be approved in an annual budget, as originally approved or amended, or by a vote of the board or membership as appropriate. All disbursements should be documented by an invoice, receipt or other appropriate written documentation.
- The individual(s) with signature authority may reconcile bank statements. However, at least one additional officer or director should review monthly bank statements, or bank statements may be included with the treasurer's report to the board/membership.
- Finances should be reviewed annually by an audit committee that consists of two or more individuals who do not routinely handle the organization's finances, such as by being a signatory on the accounts.
- Cash should always be counted by at least 2 persons at/near the time received, and then recounted by the treasurer or other individual prior to deposit.

Step #7: Review reporting systems ensure adequate information is provided for the organization and its officers/directors to make reasonable decisions.

- ☐ Are reports from the treasurer timely and complete?

- ☐ Are financial policies, including separation of financial controls, being followed?
- ☐ Are all records being gathered (invoices, receipts, cash records, checks and disbursement records, bank records, treasurer's reports) so that they can be reviewed as needed, and only discarded in accordance with the organization's record retention guidelines.

Step #8: Write a report

The financial review/audit report should document at a minimum:

1. Steps taken in the financial review;
2. Current fund(s) balance and balance sheet
3. Comments, if any, on any concerns or discrepancies found and the audit committee's recommendations to correct these concerns or discrepancies.
